

DUSTING FOR FINGERPRINTS

You will need

- Cocoa powder
- Clear sticky tape
- White paper

What you do

1. First, press your finger onto a smooth, hard, pale surface, such as a white plate. If your hands are very clean or dry, use some hand lotion first.
2. Sprinkle a little cocoa powder over the print.
3. Gently blow the excess powder away, leaving just the powder stuck to the print.
4. Carefully press a piece of tape over it, then peel it off.
5. Press the tape onto some paper.
