

HOW STUFF WORKS – TOILETS ANSWERS

Q1. Justifying inferences with evidence.

Why are modern toilets better than old-fashioned ones?

A1. They use about half as much water as old-fashioned ones.

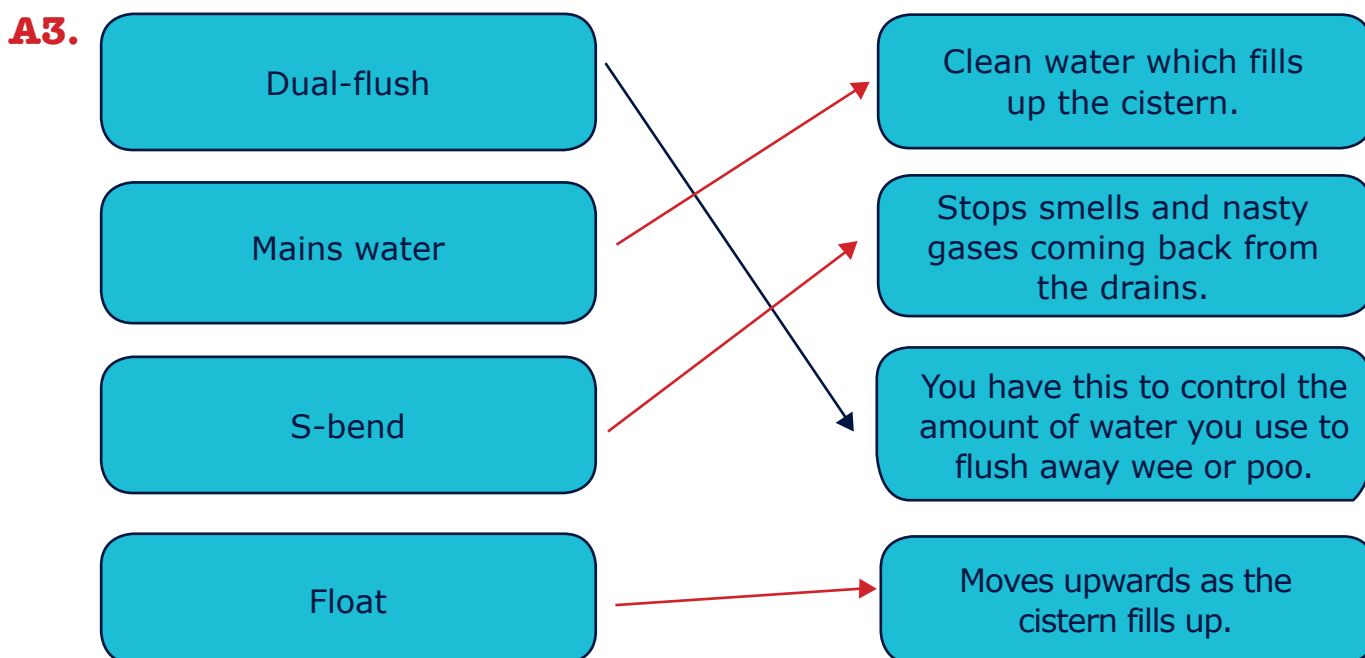

Q2. Retrieve and record information.

How are the two flushes different in a dual-flush toilet?

A2. One produces a short flush (for wee) and the other gives a full flush (for big poos).

Q3. Using details to support the main idea.

On the left are some toilet features. Draw a line to the detail on the right that goes with each of them. One has been done for you.

Q4. Read further exception words, including those with spelling/sound links.

Can you find the missing letters in these toilet-related words?

A4. _ l u _ h = Flush

_ o _ = Poo

S _ a _ = Seat

T _ _ k = Tank
